CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates," or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these deviations, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the manager and the portfolio management team concerning significant factors and developments that have affected the Fund's performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

INVESTMENT OBJECTIVES AND STRATEGIES

Purpose Active Balanced Fund (the "Fund") seeks to provide unitholders with a combination of long-term capital growth and a moderate level of income, primarily by investing in a diverse portfolio of equity securities and fixed income securities located anywhere in the world. The Fund's objective is to outperform a passive balanced strategy over a full market cycle on a risk adjusted basis. Any change to the fundamental investment objectives must be approved by a majority of votes cast at a meeting of securityholders called for that purpose.

The Portfolio Manager will primarily invest in global equities, fixed income securities, and other asset classes as deemed appropriate. The portfolio construction approach blends both active and passive investment strategies, intentionally deploying active strategies in markets that are less efficient or where they can otherwise add value through expected performance and/or risk management. In more efficient areas of the markets, the Portfolio Manager will emphasize low-cost passive to reduce costs.

The Manager has established a baseline allocation, diversified across asset classes and geographies, based on long-term asset class returns and volatility that best match the Fund's investment objectives. The asset class composition of the portfolio will change over time subject to momentum and fundamental factors appropriate to the long-term objectives of the Fund to maintain a moderate focus on long-term growth and income. This active asset allocation approach will attempt to take advantage of market opportunities and/or mitigate risk around the baseline allocation. The estimated allocation is as follows:

	Baseline	Lower	Upper
Cash	2%	0%	10%
Fixed Income	38%	28%	48%
Equities	60%	45%	75%

The Manager may, if it deems appropriate, vary from the allocations noted above.

Underlying holdings are selected from an investment universe that combines proprietary and third party funds, broadly representing the asset classes, geographies and investment strategies represented in the Fund's defined allocations.

The Fund will invest in select products managed by Purpose up to a maximum of 40% of assets under management, not including allocations to cash management or money market funds managed by Purpose.

In addition, when appropriate, the Fund may also use derivatives for both hedging and non-hedging purposes, including but not limited to options, futures contracts, forward contracts and swaps as permitted by Canadian securities laws, to hedge market exposure to protect capital, to generate income, hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies and/or as a substitute for direct investment. The Fund may also enter into repurchase agreements, reverse repurchase agreements and/or securities lending transactions to generate additional income.

RISK

The risks of investing in the Fund are disclosed in the Fund's prospectus and there have been no significant changes during the period that affected the overall level of risk associated with the Fund.

RESULTS OF OPERATIONS

The Fund offers ETF units listed on the Toronto Stock Exchange under the ticker PABF and mutual fund classes.

The net asset value per unit as at:

Class	**June 30, 2026 ($)**	December 31, 2025 ($)
ETF Units	27.13	25.31
Class A Units	26.33	24.70
Class F Units	27.14	25.31

During the period ended June 30, 2026 the Fund paid distributions as follows:

Month	ETF Units ($)	Class A Units ($)	Class F Units ($)
March	0.1950	0.1900	0.1950
June	0.1950	0.1900	0.1950
Total	0.3900	0.3800	0.3900

Over the period from January 1 to June 30, 2026, financial markets were significantly influenced by a geopolitical conflict that began in late February, which drove credit spreads wider and contributed to volatility across asset classes. Both the Bank of Canada and the Federal Reserve maintained steady policy rates throughout the first half of the year, with Canada holding its overnight rate at 2.25% and the United States keeping the federal funds rate in the 3.50%-3.75% range, even as central banks monitored evolving geopolitical risks and their potential inflationary effects. The conflict's impact was particularly evident in credit markets, where US high yield spreads widened by roughly 50 basis points and European high yield spreads expanded by approximately 80 basis points from the initial shock, though investment grade credit remained relatively resilient with spreads holding in historically tight ranges. US Treasury yields moved higher over the period, with the 10-year yield rising above 4.5% and the 30-year yield exceeding 5% by mid-May as policy-rate expectations shifted. The Bank of Canada specifically highlighted concerns about oil price effects from Middle East tensions alongside ongoing challenges from weak domestic activity and US trade-policy uncertainty, underscoring the complex backdrop facing policymakers during the period.

Multi-asset markets in the first half of 2026 were characterized by persistent policy rate stability, with the Bank of Canada maintaining its overnight rate target at 2.25% throughout the period and the Federal Reserve holding the federal funds target range at 3.50%-3.75%, while longer-term yields moved higher with the 10-year US Treasury yield rising above 4.5% by mid-May. The rolling 3-year correlation between global stocks and bonds remained positive and elevated in the 89th percentile of the past 35 years, representing a structural shift from the traditionally negative stock-bond correlation that multi-asset portfolios have historically relied on for diversification. Despite this correlation challenge, diversification still delivered meaningful benefit as equities, commodities, credit, and duration all generated healthy returns over the period, with credit spreads remaining relatively contained despite some widening during geopolitical tensions in February and March. Overall, multi-asset returns were supported by selective positioning and income generation across asset classes, with bond yields reset meaningfully higher and inflation moderating creating more attractive valuations than in several prior years and strengthening the case for diversified allocation strategies.

The Fund posted positive performance over the period. Equity holdings represented the Fund's largest gains, with alternatives and bonds also standing at positive levels. Within equity allocations, the Fund's largest gains were concentrated in equity index positions, materials also contributing positively; these gains were partially offset by positions in financials and information technology standing at losses. From a geographic perspective, Canadian holdings carried the largest gains, with international, United States, and Japanese positions also standing at positive levels. At the security level, the

Fund's largest gains were concentrated in Purpose Core Equity Income Fund, Purpose International Dividend Fund, MSCI EAFE, Purpose Tactical Asset Allocation Fund, and Purpose Gold Bullion Fund. Overall, the Fund maintained a diversified positioning across multiple asset classes and geographies, with equity index exposure and Canadian holdings representing areas of concentration.

RECENT DEVELOPMENTS

There were no changes to the Manager of the Fund, nor were there any material changes to the investment philosophy or process. The Manager actively monitors the positioning of the Fund's portfolio for changes in current market conditions and the economic environment.

RELATED PARTY TRANSACTIONS

FUND MANAGEMENT ACTIVITIES

Purpose is deemed to be a related party as Manager of the Fund, often also appointing itself to such roles as trustee and/or portfolio manager. Accordingly, Purpose is responsible for the day-to-day administration of the Fund and receives a management fee in consideration for its services. No management fees or administration fees are payable by a Fund that, to a reasonable person, would duplicate a fee payable by the underlying funds of that fund for the same service. In addition, the Fund will not pay any sales fees or redemption fees upon a purchase or redemption of securities of an underlying fund where (a) the underlying fund is managed by Purpose or an affiliate or associate of Purpose, or (b) a reasonable person would consider that fee to duplicate a fee payable by an investor in the Fund. Please refer to the "Management Fee" section for fees paid to Purpose.

Purpose has also established an Independent Review Committee ("IRC") as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager's written policies and procedures that deal with conflict of interest matters in respect of the Fund. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Fund are reported in the Statements of Comprehensive Income.

The Fund is permitted to purchase, sell and hold units or shares in other investment funds for which Purpose is the manager. With respect to the purchase, sale or holdings in such units or shares, Purpose relies on standing instructions from the IRC as a positive recommendation permitting such investments subject to Purpose complying with its established policies and procedures regarding fund-on-fund investments and reporting on such compliance periodically to the IRC.

ADMINISTRATION FEES

Purpose charges the Fund an administration fee, calculated daily and payable monthly, in lieu of certain operating and administrative expenses incurred by the Fund. In turn, Purpose has agreed to pay all of the operating expenses of the Fund, other than certain expenses such as brokerage commissions, portfolio transaction costs, and other such expenses, as described in the Fund's prospectus. The administration fees paid by the Fund are reported in the Statements of Comprehensive income.

INDEPENDENT REVIEW COMMITTEE

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

The members of the Independent Review Committee as at December 31, 2025 were Douglas G. Hall (Chair), Jean M. Fraser and Karen A. McRae. Effective January 1, 2026, Douglas G. Hall and Karen A. McRae ceased to be independent review committee members and Randall C. Barnes and Stacy Rosen were appointed to be independent review committee members. Therefore, the members of the Independent Review Committee as at June 30, 2026 were Randall C. Barnes (Chair), Jean M. Fraser and Stacy Rosen.

Notes:

1) The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown except 2026 which is shown as at June 30.
2) The management expense ratio ("MER") is calculated as the total expenses, excluding distributions, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time.
3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all classes of units of the Fund.
4) The Fund Expense Ratio ("FER") shown includes the Fund's management expenses and trading costs. These costs are deducted from the fund's assets, reducing returns, but you do not pay them directly. FER excludes personalized costs or fees you may pay to your dealer (e.g., account administration or advisory fees). These will appear in your dealer's annual charges and compensation report, as required under CSA Total Cost Reporting rules.
5) The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the year, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the year. The Fund's portfolio turnover rate indicates how actively the Fund's Investment Sub-Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all classes of units of the Fund.

MANAGEMENT FEES

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides the Fund will pay Purpose an annual management fee (the "Management Fees"), plus applicable HST, calculated and accrued daily and paid monthly in arrears, equal to the following percentage of the net assets of each class of units:

Annual Management Fee
(% of Net Asset Value of each unit)

Class	Management Fee
ETF Units	0.20%
Class A Units*	1.20%
Class F Units	0.20%

* Includes a service fee at an annual rate of 1.00% of the daily average Net Asset Value of the Class A units.

The Fund may from time to time invest in other investment funds which are related funds managed by Purpose. An investment is made where it is an efficient and cost effective way for the Fund to execute its investment strategy. The investment may only be made on the basis that there will be no duplication of management fees.

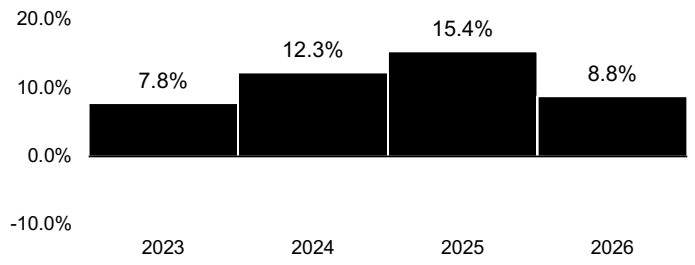

PAST PERFORMANCE

Please note that the performance information shown in this section assumes that all dividends made by the Fund, if any, in the periods shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, distributions or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS

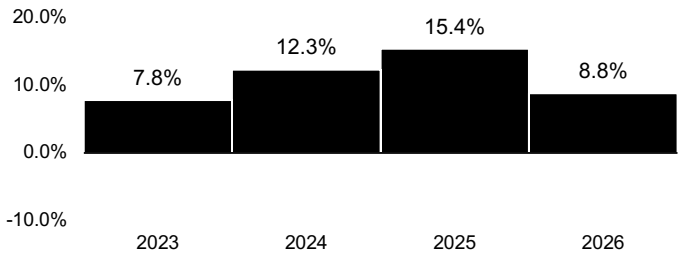

The bar charts show the performance of each class of units for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period.
